

**Building Hope.  
Creating Connections.  
Changing Futures.**

A rigorous, college preparatory curriculum specifically designed to support K – 12 autistic students and those with related educational needs.

## **Building Hope**

We build hope for students by creating a supportive and inclusive environment that addresses the unique needs of each student and helps them develop effective communication and essential skills for living.

## **Creating Connections**

We create connections through activities that support interaction and enrich their classroom experiences and student life, such as field trips, choir, athletics, student council, and community service. Social skills are taught as a core curricular course.

## **Changing Futures**

Students are given the tools to develop into well-rounded young people who are well prepared for life beyond Village Glen. We help students and their families plan for the future, including post-school transition planning, college options, and adult services.

Recognizing the unique strengths, challenges, and innate talents of every student, Village Glen is dedicated to fostering robust academic success as well as social and personal well-being. Our curriculum is designed to align with college preparatory A-G requirements, encompassing Honors and Advanced Placement options to better prepare students for college. Our distinctive approach combines a strong emphasis on social skills development with a comprehensive array of clinical services.

Applications are accepted year-round for students in grades K-12.

**Residential Options Available:** Students may reside in The Help Group's Project Six residential program, located within five miles of the Sherman Oaks campus.
